Google

To unlock new opportunities, true insights must be

Novel

Credible

Actionable

Meet James.

Using gut instincts

- Experimented with a new recipe and came up with pineapple pizza; loved it and immediately added it to the menu.
- Cut prices when sales were down.

Using Data

Data = facts or statistics to reference.

Analytics = patterns and trends.

Insights = actionable value.

Look at numbers to make
business decisions rather
than opinion or gut instinct.

Get started using data

Step 1: Outline goals

What are you trying to achieve?

Step 2: Ask questions

What answers do you need?
